

**NOTICE OF PUBLIC HEARING BY BCRUA  
CONCERNING THE USE OF PUBLIC PARKLAND  
FOR OTHER PURPOSES**

**The Brushy Creek Regional Utility Authority (“BCRUA”) Board of Directors will hold a public hearing on Wednesday, July 17, 2013 at 7:00 p.m. at the Cedar Park Recreation Center Meeting Room, 1435 Main Street, Cedar Park, Texas to consider the use of dedicated public parkland for the following purposes:**

BCRUA’s proposed creation of a new deepwater intake (“Project”) will involve the use or taking of public parkland that is owned or controlled by the Lower Colorado River Authority (“LCRA”) and Travis County. A pumping station for the intake will be constructed on a portion of existing Sandy Creek Park in Travis County abutting the existing Cedar Park Water Treatment plant, an additional portion of Sandy Creek Park will be utilized temporarily for construction purposes, and two subsurface easements containing a water transmission line will be tunneled beneath the park. The public hearing will be to consider (a) whether there is no feasible and prudent alternative to the permanent use or taking of a portion of Sandy Creek Park for the pumping station and subsurface transmission line easements, and also to the temporary taking of a portion of Sandy Creek Park to construct the pumping station; (b) whether the Project includes all reasonable planning to minimize harm to Sandy Creek Park as a park, recreation area, scientific area, wildlife refuge, or historic site, resulting from the use or taking; and (c) BCRUA’s approval of the Project.

The Public Hearing will be part of a scheduled meeting of the BCRUA. A site plan showing the proposed uses of Sandy Creek Park may be viewed online at [www.bcrua.org](http://www.bcrua.org), and will also be available at the public hearing.

This notice is given pursuant to Texas Parks and Wildlife Code, Sections 26.001, et. seq.
